GB Product compliance

All products are designed in compliance with the **UNI EN 14749 norm. "Storage units and worktops for domestic use and for kitchen- Safety requirements and proof methods.** The rule is intended to assess the product compliance the requirements of safety and resistance in order to ensure that the product, installed in accordance with the manufacturer's instructions and not tampered with, provides satisfactory performance during use by the consumer. Before installation make sure that the product has not suffered breakage caused by transport, carefully check that the product is free from visible defects. The manufacturer can not assume any liability for defects on a product already installed.

Maintenance

All products are designed and manufactured to be installed and used in the bathroom, the materials used and the processing techniques reduce the absorption and swelling risk but do not eliminate it. To preserve the products avoid prolonged contact of the surfaces with water and liquids and, after the cleaning operations dry immediately with a cloth. Avoid placing on the surfaces of the products any type of abrasive materials. For cleaning use a soft cloth and use only and exclusively mild detergents, non-abrasive and solvent-free; in particular avoid using products containing alcohol, acetone, trichloroethylene, ammonia, bleach or made of acids and then wipe with a dry soft cloth. It is inevitable that surfaces undergo a slight color change over the time, especially if exposed to direct light.

Warranty

The guarantee must be exercised by a complaint to the manufacturer through the dealer where the product has been purchased. The product is guaranteed for 24 months (2 years) from the date of purchase, as evidenced by a receipt stating the name of the dealer.

The warranty only covers operation flaws resulting from manufacturing defects.

The eventual failure of the product must be checked and accepted by the manufacturer.

The guarantee only commits the manufacturer to repair and /or replace defective components:

it is therefore excluded any further claims by the user.

The warranty is void if:

- The installation does not meet the installation instructions provided by the manufacturer.
- The operating defect results from tampering or unauthorized intervention by the manufacturer
- The malfunction is caused by abnormal wear of the components due to negligence in the use and ordinary maintenance

I Conformità del prodotto

Tutti i prodotti sono progettati nel rispetto della norma **UNI EN 14749. "Mobili contenitori e piani di lavoro per uso domestico e per cucina - Requisiti di sicurezza e metodi di prova".** La norma ha lo scopo di valutare la conformità del prodotto ai requisiti di sicurezza e di resistenza, per garantire che il prodotto, installato in conformità alle istruzioni del fabbricante e non manomesso, fornisca prestazioni soddisfacenti durante l'uso da parte dell'utente. Prima dell'installazione verificare che il prodotto non abbia subito rotture causate dal trasporto, controllare attentamente che il prodotto sia privo di difetti evidenti. Il fabbricante non può assumersi nessuna responsabilità relativa a difetti su un prodotto già installato.

Manutenzione

Tutti i prodotti sono progettati e costruiti per essere installati e utilizzati nella stanza da bagno, i materiali utilizzati e le tecniche di lavorazione riducono il rischio di assorbimento e rigonfiamento ma non lo eliminano. Per preservare i prodotti evitare il contatto prolungato delle superfici con acqua e liquidi e, anche dopo le operazioni di pulizia asciugare immediatamente con un panno. Evitare di appoggiare sulle superfici dei prodotti qualsiasi tipo di materiale abrasivo, per la pulizia usare un panno morbido e utilizzare solo ed esclusivamente detergenti neutri, non abrasivi e privi di solventi; in particolare l'uso di prodotti contenenti alcool, trielina, ammoniaca, candeggina o a base di acidi, ed infine ripassare con un panno morbido asciutto. È inevitabile che le superfici subiscano lievi variazioni di colore nel tempo, soprattutto se esposti alla luce diretta.

Garanzia

La garanzia deve essere esercitata facendo reclamo, al fabbricante, tramite il rivenditore presso il quale è stata acquistato il prodotto. Il prodotto è garantito per 24 mesi (2 anni) dalla data d'acquisto, comprovata da un documento fiscale che riporti il nominativo del rivenditore. La garanzia copre esclusivamente vizi di funzionamento conseguenti a difetti di fabbricazione. L'eventuale non conformità del prodotto deve essere verificata e accettata dal fabbricante. La garanzia impegna il fabbricante solo alla riparazione e/o sostituzione dei componenti difettosi: è pertanto esclusa qualsiasi ulteriore pretesa da parte dell'utilizzatore.

La garanzia decade automaticamente quando:

- L'installazione non è conforme alle istruzioni di montaggio fornite dal fabbricante.
- Il vizio di funzionamento è conseguente a manomissione o a interventi non autorizzati dal fabbricante.
- Il funzionamento difettoso è causato da una usura anomala dei componenti dovuta a negligenza nell'uso e nell'ordinaria manutenzione.

F Conformité du produit

Tous les produits sont projetés dans le respect de la norme **UNI EN 14749 « Meubles conteneurs et plans de travail pour usage domestique et pour cuisine – Conditions de sécurité requises et méthodes d'essai »**. La norme a pour but d'évaluer la conformité du produit aux conditions de sécurité et de résistance requises, afin de garantir que le produit, installé en conformité aux instructions du fabricant et non altéré, fournisse des prestations satisfaisantes durant son utilisation de la part de l'utilisateur. Avant de procéder à l'installation, vérifier que le produit n'ait subi aucun dommage durant le transport et contrôler avec soin que le produit soit exempt de tout défaut visible. Le fabricant ne peut être tenu responsable pour tout dommage portant sur un produit déjà installé.

Entretien

Tous les produits sont projetés et fabriqués pour être installés et utilisés dans une salle de bain, les matériaux utilisés et les techniques d'exécution réduisent le risque d'absorption et de gonflement mais ne les éliminent pas. Pour préserver les produits éviter le contact prolongé des surfaces avec eau ou liquides, et, même après le nettoyage, essuyer immédiatement avec un chiffon. Éviter de poser sur la surface tout type de produit abrasif. Pour le nettoyage utiliser un chiffon doux et uniquement des détergents neutres, non abrasifs et sans solvants ; éviter en particulier l'usage de produits qui contiennent de l'alcool, de l'acétone, du trichloréthylène, de l'ammoniaque, de l'eau de javel ou à base d'acide, et finir en passant un chiffon doux sec. Il est inévitable que les surfaces puissent subir des légères variations de couleur avec le temps, surtout si exposées à la lumière directe du soleil.

Garantie

La garantie est opposable au fabricant à travers le revendeur auprès duquel le produit a été acheté. Le produit est garanti pour une période de 24 mois (2 ans) à partir de la date d'achat justifiée par la facture sur laquelle figure le nom du revendeur. La garantie couvre exclusivement les vices de fonctionnement consécutifs à des défauts de fabrication. L'éventuelle non-conformité du produit doit être vérifiée et acceptée par le fabricant. La garantie engage uniquement le fabricant à la réparation et/ou le remplacement des composants défectueux : de ce fait, sont exclues toutes poursuites ultérieures de la part de l'utilisateur.

La garantie devient caduc si :

- L'installation n'est pas conforme aux instructions de montage fournies par le fabricant.
- Le vice de fonctionnement est consécutif à une utilisation non conforme du produit ou à une intervention non autorisée par le fabricant.
- Le fonctionnement défectueux est causé par une usure anormale des composants due à une négligence tant au niveau de l'utilisation que de l'entretien.

D Produkt-Anforderungen

Alle Produkte sind gemäß der europäischen Richtlinie **UNI EN 14749 hergestellt, welche die Sicherheit und Kontrolle von Möbeln und Arbeitsplatten im Hausgebrauch bewertet**. Die Richtlinie hat das Ziel, die Anforderungen zur Sicherheit und die Beständigkeit des Produktes zu bewerten und zu garantieren, nachdem dieses vorschriftsgemäss laut Montageanweisungen des Herstellers installiert wurde. Vor der Montage muss das Produkt sorgfältig überprüft werden, ob evtl. Transportschäden oder andere Mängel vorliegen. Der Hersteller übernimmt keine Garantie für bereits installierte Produkte.

Pflege

Alle Produkte sind für den Gebrauch im Badezimmer entwickelt und produziert worden. Die verwendeten Materialien und die Verarbeitungstechnik vermindern das Risiko des Aufsaugen von Wasser und des Aufquellen, beseitigen dieses jedoch nicht. Um die Produkte zu erhalten, vermeiden Sie längeren Kontakt mit Wasser oder anderen Flüssigkeiten, nach Gebrauch und Reinigung sofort mit einem Tuch trocknen. Vermeiden Sie den Gebrauch von Scheuermitteln, benutzen Sie nur neutrale Reinigungsmittel, welche lösemittelfrei und nicht scheuernd sind, vor allem kein Alkohol, Aceton, Trichloräthylen, Ammoniak, Bleich- oder Lösungsmittel. Es ist unvermeidlich, dass die Oberfläche im Verlauf der Zeit einer leichten Farbveränderung unterliegt, besonders wenn diese direkter Lichteinstrahlung ausgesetzt ist.

Garantie

Die Garantie kann mittels einer Reklamation an den Hersteller, durch den Händler, wo das Produkt erworben wurde, gültig gemacht werden. Das Produkt hat eine Garantie von 24 Monaten (2 Jahre) ab dem Verkaufsdatum. Der Verkauf muss mittels einer Rechnung nachgewiesen werden. Die Garantie deckt nur Mängel, welche durch Produktionsfehler verursacht wurden. Die Reklamation wird vom Hersteller geprüft und bei sachlicher Berechtigung akzeptiert. Die Garantie verpflichtet den Hersteller nur zur Reparatur und/oder Ersatzlieferung der mangelhaften Teile, jede etwaige andere Forderung ist ausgeschlossen.

Die Garantie erlischt automatisch wenn:

- Die Montage nicht fachgemäß laut Montageanleitung durchgeführt wurde.
- Der Funktionsfehler durch unsachgemäßes Einwirken oder durch Reparaturen, welche nicht vom Hersteller bewilligt wurden, verursacht wurde.
- Der Funktionsfehler durch übermäßigen Verschleiß der Komponenten durch Nachlässigkeit beim Gebrauch oder der Pflege entstanden ist.

NL Conformiteit product

Al de producten zijn ontworpen volgens de norm **UNI EN 14749 “Meubels en werkbladen voor huishoudelijk gebruik en keukens – Veiligheidseisen en beproevingsmethoden”**. Deze norm heeft als doel de conformiteit van de producten te evalueren volgens de veiligheidsnormen en de weerstand van het product, om te garanderen dat het product, geïnstalleerd volgens de instructies van de fabrikant zonder te forceren, op bevredigende manier aan de verwachting van de gebruiker voldoet. Vóór installatie dient te worden gecontroleerd of het product geen schade heeft opgelopen gedurende het transport en of er geen duidelijk zichtbare gebreken zijn. De fabrikant kan niet verantwoordelijk worden gesteld voor beschadigingen/defecten op reeds geïnstalleerde producten.

Onderhoud

Al de producten zijn ontworpen en geproduceerd om te worden geplaatst en gebruikt in de badkamer, de gebruikte materialen en methodes van verwerking verlagen het risico op absorptie van water en het opzwellen van de producten maar elimineert het risico niet. Om het product in goede staat te behouden moet langdurig contact met water of vloeistoffen worden vermeden en, na het schoonmaken, moet het product onmiddellijk worden droog gewreven met een doek. Plaats geen schurend materiaal op de oppervlaktes van het product, gebruik voor het schoonmaken een zachte doek en uitsluitend neutraal, niet-schurend en oplosmiddelvrij reinigingsmiddel; vermijd meer bepaald het gebruik van reinigingsmiddel die alcohol, aceton, trichloorethyleen, ammoniak, bleekmiddel of zuur bevatten, en droog na met een zachte droge doek. Het is onvermijdelijk dat de oppervlakken na verloop van tijd een lichte kleurverandering ondergaan, vooral als deze zijn blootgesteld aan direct zonlicht.

Garantie

U kunt zich beroepen op de garantie door een klachtmelding te doen bij de fabrikant, via het verkooppunt waar u het product heeft aangekocht. Het product heeft een garantie van 24 maanden (2 jaar) vanaf de aankoopdatum, te bewijzen met een geldig aankoopbewijs waarop de naam van het verkooppunt staat vermeld. De garantie dekt enkel gebreken in functionering, veroorzaakt door productiefouten. In geval van eventuele niet conformiteit van het product, moet dit worden onderzocht en aanvaard door de fabrikant. De garantie verplicht de fabrikant enkel tot de reparatie en/of vervanging van de defecte onderdelen: eventuele bijkomende vorderingen van de gebruiker zijn uitgesloten.

De garantie verloopt automatisch wanneer:

- De installatie niet overeenkomt met de montage instructies verschaft door de fabrikant.
- De gebreken zijn veroorzaakt door manipulatie of niet erkende interventies door de fabrikant.
- Het gebrek wordt veroorzaakt door een abnormale slijtage van de onderdelen als gevolg van nalatigheid in het gebruik en het dagelijks onderhoud.

E Conformidad del producto

Todos los productos son diseñados respetando la normativa **UNI EN 14749 “Muebles contenedores y mesas de trabajo para uso doméstico y para cocinas – Requisitos de seguridad y métodos de prueba”**. La normativa tiene el propósito de evaluar la conformidad del producto a los requisitos mínimos de seguridad y resistencia, para garantizar que el producto, instalado en conformidad con las instrucciones del fabricante y no manipulado, ofrezca prestaciones satisfactorias durante la utilización de parte del usuario. Antes de la instalación, verificar que el producto no haya sufrido daños causados por el transporte, controlar cuidadosamente que cada componente no tenga defectos evidentes. El fabricante no puede asumir responsabilidad alguna cuando un producto haya sido ya instalado.

Manutención

Todos los productos son proyectados y construidos para ser utilizados en el cuarto de baño, los materiales empleados y las técnicas de producción reducen el riesgo de impregnación y de hinchamiento, pero no lo eliminan. Para conservar los productos evitar el contacto prolongado de las superficies con agua o líquidos y, después de la rutina de limpieza, secar inmediatamente con un paño. Evite de apoyar sobre la superficie de los productos cualquier género de material abrasivo, para la limpieza utilizar un paño suave y usar exclusivamente detergentes neutros, sin abrasivos y sin solventes; en particular evitar el uso de productos que contengan alcohol, amoníaco, lejía, cloro y detergentes agresivos ácidos, y finalmente secar con un paño suave y seco. Es inevitable que las superficies sufran leves alteraciones de color con el tiempo, sobre todo si están expuestas a la luz directa.

Garantía

La garantía debe ser ejercitada haciendo el correspondiente reclamo al fabricante a través del revendedor al cual se compró la pared de ducha. El producto está garantizada por 24 meses (2 años) desde la fecha de compra, comprobada con un documento fiscal que contenga el nombre del revendedor. La garantía cubre exclusivamente vicios de funcionamiento consecuentes a defectos de fabricación. Eventualmente, la no conformidad del producto deberá ser verificada y aceptada por el fabricante. La garantía responsabiliza al fabricante de la reparación y/o sustitución de componentes defectuosos: queda por lo tanto, excluida cualquier ulterior pretensión por parte del usuario.

La garantía cesa automáticamente cuando:

- La instalación no sea conforme a las instrucciones de montaje suministradas por el fabricante.
- El defecto de funcionamiento sea consecuencia de manipulación o de interventos no autorizados por el fabricante.
- El funcionamiento defectuoso sea causado por un uso anómalo de los componentes debido a negligencia en el uso o en la ordinaria manutención.

GB Installation

Installation should be performed by specialised personnel.

Be sure that the wall where the furniture have to be mounted grants suitable compacity and resistance characteristics. The best results can be obtained by mounting on concret or brick walls that are, plastered or tiled. If the wall is not built in concret or bricks, consult a specialist before installation. Drill with a bit as shown in the pictures and make sure they are free of dust before inserting screw anchors.

Warning! before proceeding to drill the walls, make sure that there are no electrical wires or pipes water/gas.

Screw light.

I Installazione

L'installazione deve essere eseguita solo da personale specializzato.

Assicurarsi che la parete su cui si intende fissare i mobili offra le opportune caratteristiche di resistenza e compattezza. I migliori risultati si ottengono con montaggi su muri in calcestruzzo o mattoni, intonacati ed eventualmente rivestiti con piastrelle. Se il muro è realizzato in materiale diverso da calcestruzzo o mattoni, consultare uno specialista prima dell'installazione. Eseguire i fori con la punta indicata nelle figure, avendo cura di liberarli dalla polvere prima di introdurre i tasselli.

Attenzione! prima di procedere alla foratura delle pareti, accertarsi che non siano presenti cavi elettrici o tubi acqua/gas.

Avvitare le viti a fondo.

F Installation

L'installation de doit être effectuée que par le personnel spécialisé.

S'assurer que le mur où les meubles doivent être fixés, soit compact et résistant. On obtient les meilleurs résultats sur les murs, crépis et éventuellement carrelés, en béton ou en briques. Si le mur n'est pas en béton ou en briques, consulter un spécialiste avant d'effectuer l'installation. Percer les trous avec la pointe comme indiqué sur le dessin en ayant soin d'enlever toute la poussière avant d'y introduire les chevilles.

Attention! avant de procéder au perçage des murs, vérifier qu'ils ne recèlent pas de conduits électriques, d'eau ou de gaz.

Bien visser.

D Installation

Die Installation darf nur durch spezialisiertes Personal erfolgen.

Vergewissern Sie sich, daß die Wand, auf welcher die Wandhallerungen befestigt werden sollen, die notwendigen Eigenschaften hat. Die besten Ergebnisse erzielen Sie bei Installation auf verputzten und eventuell verfliesen Beton- oder Ziegelmauern. Wenn es sich nicht um Beton- oder Ziegelmauern handelt, wenden Sie sich vor der Installation an einen Fachmann. Benutzen Sie für die Bohrungen einen Bohrer, wie in der Abbildung gezeigt und reinigen Sie sie, bevor Sie die Dübel einbringen.

Achtung! Bevor Sie in die Wände bohren, stellen Sie bitte fest, dass keine Stromkabel.

Ziehen Sie die Schrauben fest an.

NL Installatie

De installatie mag alleen door bevoegd personeel worden gedaan.

Verzekert u ervan dat de wand waaraan u het meubel wilt monteren stevig genoeg is. Montage aan geplamuurde en eventueel betegelde betonnen of bakstenen wanden levert de beste resultaten. Voor de montage aan een wand van ander materiaal dan beton of baksteen dient u een vakman te raadplegen. Boor gaten in de wand met gebruik van het boortje dat is aangegeven in de afbeeldingen en verwijder het gruis uit de gaten voordat u de bijgeleverde pluggen erin plaats. Dit product is gekeurd voor het draagvermogen zoals aangegeven in de afbeelding.

Opgelet! Voordat er overgegaan kan worden tot het boren in de wanden, moet u ervan verzekerd zijn dat er geen elektrische draden of water/gaspijpen aanwezig zijn. Draai de schroeven volledig aan.

E Instalacion

La instalación debe ser efectuada sólo por personal especializado.

Asegurarse de que la pared donde se va a montar los muebles sea suficientemente resistente y sólida. Los mejores resultados se obtienen en montajes sobre paredes de hormigón, ladrillos o revestimientos ceramicos. Si la pared es de otros materiales, consultar con un técnico antes de la instalación. Hacer los agujeros con la broca indicada en los dibujos teniendo la precaución de limpiar el polvo antes de introducir los tacos.

Atención! Antes de proceder a agujerear las paredes, asegurarse que no hubiesen cables eléctricos o tuberías de agua/gas.

Atomillar a fondo.

GB Instruction for maintenance and cleaning

Avoid to lay any abrasive material onto the products surfaces, for cleaning use a soft cloth and only neutral detergents, not abrasive and without solvents; avoid above all the use of products containing alcohol, acetone, trichloroethylene, ammonia, chlorine water or acid base products. At the end dry with a soft dry cloth.

I Istruzioni per la manutenzione e la pulizia

Evitare di appoggiare sulle superfici dei prodotti qualsiasi tipo di materiale abrasivo, per la pulizia usare un panno morbido e utilizzare solo ed esclusivamente detergenti neutri, non abrasivi e privi di solventi; in particolare evitare l'uso di prodotti contenenti alcol, acetone, trielina, ammoniaca, candeggina o a base di acidi, ed infine ripassare con un panno morbido asciutto.

F Instuctions d'entretien et nettoyage

Eviter de déposer sur les superficies des matériaux agressifs, quelque soit leur type de matériel abrasif, pour le nettoyage utiliser un chiffon doux et utiliser seulement et uniquement des détergents neutres, non abrasifs et sans solvants; en particulier éviter l'utilisation des produits contenant alcool, dissolvants en tout genre: ammoniacque, eau de javel, produits acides et enfin ré-essuyer avec un chiffon doux.

D Gebrauch, wartung und pflege

Vermeiden Sie den Kontakt von scheuernden Gegenständen mit der Oberfläche. Vermeiden Sie den Gebrauch von Scheuermitteln, benutzen Sie nur neutrale Reinigungsmittel, welche lösemittelfrei und nicht scheuernd sind, vor allem kein Alkohol, Aceton, Trichloräthylen, Ammoniak, Bleich- oder Lösungsmittel. Nach Gebrauch und Reinigung mit einem weichen Tuch trockenwischen.

NL Instructies voor onderhoud en schoonmaak

Er moet vermeden worden om op oppervlakten schuurmiddelen te leggen, voor de schoonmaak een zachte doek gebruiken met uitsluitend neutrale schoonmaakmiddelen zonder schuurmiddel of oplosmiddel; bovenal het gebruik vermijden van producten die alcohol, aceton, trieline, ammoniak, bleekmiddel bevatten of op basis van zuren gemaakt zijn. Aan het eind van de schoonmaak, nogmaals met een zachte doek afdrogen.

E Instrucciones para el mantenimiento y limpieza

Evitar de apoyar a las superficies cualquier tipo de material abrasivo, para la limpieza utilizar un paño suave con una pequeña cantidad de detergentes neutros, exclusivamente, no abrasivos y privos de solventes; particularmente evitar el uso de productos que contengan alcohol, acetona, bencina quitamanchas, amoníaca, lavandina o a base de ácidos, y finalmente repasar con un paño suave y seco.
